About us

The NATO Defense College Foundation was established in Rome in 2011. It grew out from a common intuition of the President Alessandro Minuto-Rizzo and the NATO Defense College top decision makers who understood the value of a non-profit NGO that could work beyond usual and institutional outreach, training, communication and scientific research activities.

The Foundation is a unique combination of scientific freedom, private agility and institutional linkage. It builds upon the top level connections and operational experience in the Trans-Atlantic outreach towards the Middle East, Eastern Europe, Southern Mediterranean and West Asia.

Our scientific research consists of several activities: Strategic Trends, Food for Thought, Papers, International Conferences, High-level Seminars, Advisory Panels, High-level Training and Webinars.
Our Aim

The Washington Treaty states in the preamble (1949) “to promote the culture of stability and well-being in the North Atlantic area and in NATO partner nations …”

This heritage shapes our aim to meet the highest standards in contributing to the public debate and future deliberations on strategic, security and geopolitical issues.
How

We foster dialogue through education, research and outreach to tackle the challenges that we are confronting

NATO Defense College Foundation
The EU is a unique and essential partner for NATO. The two organisations share a majority of members, and all members of both organisations share common values (NATO Strategic Concept 2010).

The EU and NATO are already working together on strategic and security issues.

The Foundation has a solid expertise on European hi-tech, defence and hard/soft security matters.

The Added Value

The Foundation builds upon the top level connections and operational experience in Trans-Atlantic outreach towards the Middle East, Southern Mediterranean and West Asia.

Our aim is to anticipate trends in foreign policy, defence and security.

We are outstanding among several think tanks due to our international connections.
Value for Money

The Foundation is money wise.

We do not spend into frilly offices.

We started as a fully networked virtual office start-up the Israeli way and we evolved into co-working.
Global Politics, One Step Ahead

We deal with the diversity and complexity in the globalised world.
