SESSION 1

ASSESSING CHALLENGES AND PRIORITIES

The Strategic Concept sets a coherent risks and threats picture for the strategic planning of the Alliance, which is the most relevant security provider at international level. In order to keep a credible defence and deterrence, new investments in emerging and disruptive technologies are essential, to which the new Defence Innovation Accelerator for the North Atlantic (DIANA) will give a strong impulsion. What is the most effective sharing of responsibilities and resources among allies vis-à-vis persistent and emerging challenges? How to balance investments between strengthening existing arsenals and new technologies?

Chair: **Oana Lungescu**, Distinguished Fellow, Royal United Services Institute; and former NATO Spokesperson, Brussels *

SESSION 2

PROJECTING SECURITY IN A NEW ERA: LOOKING SOUTH

The 360° security approach, a mainstay of NATO, regards both deterrence and defence and the Alliance's security projection. What has to be done to revamp the essential partnerships in the Southern Region (Mediterranean Dialogue and Istanbul Cooperation Initiative)? By next year, allies are due to reconsider those relationships and take decisions to adjourn them, building upon long-established cooperation (i.e. the Istanbul Summit in 2004) and the growing strategic importance of the MENA region.

Chair: **Flavia Giacobbe**, Journalist and Director, Formiche and Aipress, Rome *

- **Florence Gaub**, Director, Research Division, NATO Defense College, Rome *
- **Ian Lesser**, Vice President; and Executive Director, Brussels Office, The German Marshall Fund of the United States, Brussels *
